### Delhi Public School

High School - CBSE – CGPA – 9.4

Bhagalpur, Bihar

2013 – 2018

## PROJECTS

- **React Spotify Clone** - Created a Spotify replica with Node.js and React, featuring user authentication, playlist management, and seamless song playback. Leveraged RESTful APIs for seamless integration with Spotify's database. Demonstrated expertise in full-stack development, and UI/UX design.
- **PNChat: Real-Time Chat App** - Developed a real-time chat application using Node.js, HTML, CSS, and JavaScript. Implemented multi-user chat functionality with message notifications with intuitive UI for seamless communication. Demonstrated proficiency in full-stack development and user-centric design.
- **Unity Flappy Bird Game** - Built a Flappy Bird game replica using Unity and C#, showcasing game development and programming skills. Implemented core mechanics like player controls, obstacles, and scoring systems, emphasizing problem-solving and creativity in gameplay design. Demonstrated ability to create engaging user experiences.
- **Next.js Portfolio** - Crafted and hosted a professional portfolio using Next.js, React, TypeScript, SCSS, and Framer Motion. Leveraged advanced technologies to create a dynamic and visually appealing showcase of skills and projects. Hosted on Web Hostmost for seamless performance and reliability.
